

Remarks

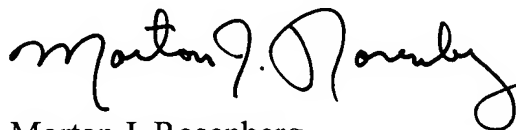

This paper is a Preliminary Amendment for a Divisional Application based upon parent Serial No. 10/171,659. A Response to a Restriction Requirement was made in the parent application where Fig. 1 was chosen with the elected Claims 1-6 and 9.

This Divisional Application is being filed directed to Embodiment VI drawn to Fig. 12 and includes Claims 7 and 8 of the original application.

Thus, this Preliminary Amendment has combined Claims 1, 4 and 7 into a newly amended independent claim and has made Claim 8 dependent upon the newly amended Claim 1. The remaining claims have been canceled in this Divisional Application by this Amendment.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
FOR: ROSENBERG, KLEIN & LEE
